Kyocera receives international awards for climate protection, innovation and sustainability

Kyoto/London, 17th February 2026. Kyocera received multiple awards at the beginning of 2026 in recognition of its achievements in climate protection, innovation, and sustainable corporate management. Recognition from international organisations such as CDP, Clarivate and EcoVadis highlights Kyocera's dedication to balancing environmental responsibility with economic progress.

CDP 'A List 2025': Kyocera ranks among the top 4 per cent worldwide

The global environmental organisation CDP has included Kyocera in its prestigious 'A List 2025'. This means that the company is one of the world's leading players in terms of transparency and performance in climate protection. Of the approximately 20,000 companies assessed, only 877 – the top four per cent – achieved the highest rating category, 'A'. For Kyocera, this is the fourth time it has been included, following previous listings in 2020, 2021, and 2023.

Clarivate Top 100 Global Innovators: Innovative strength recognised worldwide

In addition to its climate rating, Kyocera was recognised for its technological innovation: Clarivate has once again included the company in its Top 100 Global Innovators list for 2026.

The assessment took into account factors such as influence, success, geographical investment activity and uniqueness of patents. This marks Kyocera's fifth consecutive award and tenth overall ranking among the world's most innovative organisations.

EcoVadis Silver: Sustainability along the supply chain

EcoVadis, an independent organisation that evaluates companies and suppliers from over 200 industries in more than 160 countries, has awarded Kyocera Group 2025 a silver rating for its sustainable corporate management practices.

The analysis covers four key areas: the environment, labour and human rights, ethics, and sustainable procurement. Kyocera's Silver rating places it among the top 15 per cent of all companies assessed worldwide, highlighting its dedication to responsible practices throughout the entire value chain.

Long-term climate targets and sustainable corporate strategy

Kyocera is pursuing the goal of becoming climate-neutral by the 2051 financial year. By the 2025 financial year, the company had significantly reduced its emissions compared to 2020 and had accelerated the expansion of renewable energies ahead of schedule.

These latest awards strengthen Kyocera's position as a leading international technology company that prioritises innovation, transparency and sustainability.

About Kyocera

Kyocera has been successful in Europe for over 50 years. From its European headquarters in Esslingen am Neckar, KYOCERA Europe GmbH operates 29 sites including manufacturing facilities, with products ranging from fine ceramics, automotive, semiconductor and optical components to components for medical products, industrial tools, LCDs, touch solutions, industrial printing components, and consumer goods such as kitchen and office products.

KYOCERA Europe GmbH is a company of the [KYOCERA Corporation](#) headquartered in Kyoto/Japan, a renowned supplier in semiconductor, industrial and automotive components as well as electronic components, printing and multifunction systems, smart energy systems, and communications technology. Kyocera is one of the most experienced technology producers, with more than 65 years of industry expertise. The Kyocera Group comprises 288 subsidiaries (31 March 2025). With around 77,200 employees, Kyocera generated net annual sales of around EUR 12.43 billion in the 2024/2025 fiscal year.

Kyocera is ranked 1,123 on Forbes magazine's 'Global 2000' list for 2025 and ranked as 'The 100 Most Sustainably Managed Companies in the World' according to the Wall Street Journal. For the fourth time Kyocera has received an A ranking on the CDP A List for their performance on climate change. Kyocera has also received a silver rating in the EcoVadis Sustainability Survey and was acknowledged as a 'Top 100 Global Innovator 2026' for the tenth time by Clarivate, being one of the world's leading innovators.

Kyocera also takes an active interest in cultural affairs. The Kyoto Prize, a prominent international award, is presented each year by the Inamori Foundation – established by Kyocera founder Dr Kazuo Inamori – to individuals worldwide who have contributed significantly to the scientific, cultural, and spiritual betterment of humankind (equivalent to approximately €539,000 per prize category).
